

# Together We Flourish

## Creative Moments

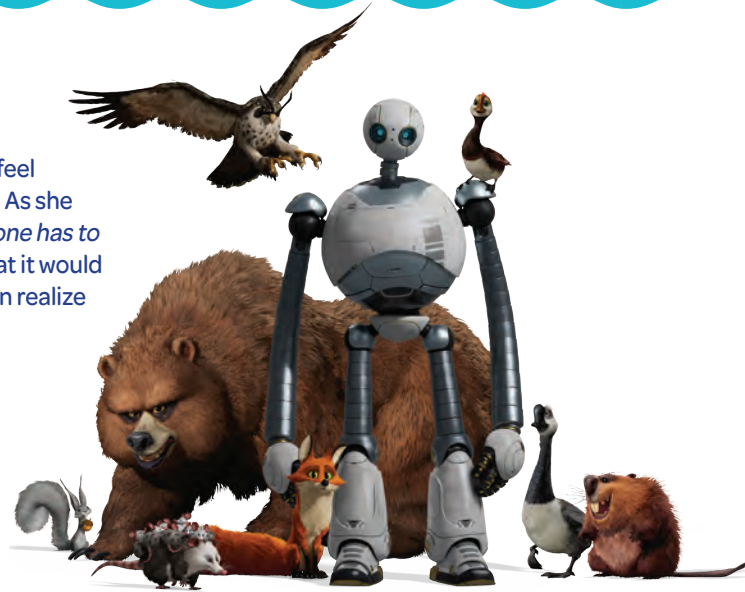

**RESPOND** to how collaborating with other creatures helped Roz feel braver and stronger in the DreamWorks movie *The Wild Robot*. As she saw challenges throughout the island, she realized that “everyone has to become more than they were programmed to be.” Imagine what it would be like to *reboot* yourself as you figure out who you are and then realize everyone flourishes by working together.

**CONNECT** challenges that you, your family, or new characters you create may face. Consider the collaboration you saw in DreamWorks *The Wild Robot* where Roz works together with Thorn the bear, Fink the fox, and other creatures who faced danger and depended on each other to survive and thrive.

**CREATE** a scene that demonstrates how working together solves problems and helps everyone flourish. Whether the characters are on a difficult journey, have a safety crisis, or are simply leaving the nest, show how teamwork makes challenges easier to overcome.

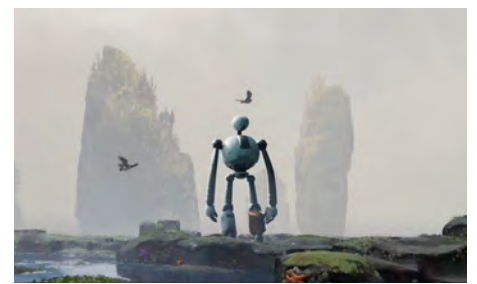

Jessica N.

Kristin M.

**PRESENT** your art and your thoughts about teamwork. Reflect on how muted and gray the scenes were when Roz was alone or how colorful and hopeful a situation feels when you face a problem. Describe the benefits of working together and how the world seems brighter when everyone collaborates.
